

SUCCESS STORY

Abbey Gym Club

Abbey Gym Club is a community gymnastics club, and registered charity, that operates from Prestwood Junior School in Buckinghamshire. Sue Egan, chair, explains how the Bucks Funding Search has helped them...

“I have found the Bucks Funding Search to be very helpful in two main ways; the online search is easy and quick to do, and produces lots of funding opportunities which can be filtered to only include open funds, which can then be sorted in order of closing date to give a prioritised action list. The list can also be saved and downloaded to a Word document so that I can print it out and tick off the funds as I apply for them. I use this search every few months to see if anything has changed since my last visit.

“I have also signed up to get a search pushed to me via email. This gives me a weekly email with links to the funds matching my search criteria that have been added within the last week. In addition to providing helpful information, it is also a useful trigger for action. I simply click on each link and the relevant page pops up in my web browser. It really could not be any easier!

“The online funding search and weekly emails are great resources for anyone who needs to raise any amount of money for a charity, both in terms of the information provided and the useful action trigger. I would not have known about many of the potential funding sources without this valuable resource.”
