RUNNING YOUR ORGANISATION

Looking after employee health, safety, and wellbeing when returning to the workplace

Are you thinking about when, if, or how to re-open your office? **Zurich Insurance** has published a [new guide](#) that can support you when making these decisions.

It covers risk assessment and safe working procedures as well as looking at how to manage a hybrid (or agile) approach or a permanent move to home working. It also includes a 16-point checklist of health and safety considerations to help you check you have everything covered.

Risk management template for event organisers

The Government has published resources to help event organisers to reduce the risk of COVID-19 transmission in event settings. When used in conjunction with the events and attractions guidance, this checklist can help event organisers to identify risks and risk management options specific to their event or setting. It includes an example of a risk management template for an indoor event with free movement of attendees and high crowd density. [Click here](#) to view the guidance.

Addressing bullying and harassment in the workplace
